Whom it May Concern

I am writing to express my interest in the posting position at your company. With a Bachelor's degree in Information Technology from Wachemo University and two years of experience as an IT Support Officer in both a local NGO and the finance technology sector, I am confident in my ability to contribute effectively to your team.

Throughout my experience, I built a solid foundation in IT support for core banking systems, covering both Islamic and conventional and ERP system. This role, along with my current position as an **IT Support Officer**, has given me extensive hands-on experience in SQL Server management, developing reports for regulatory purposes (such as NBE reports), and training end-users. My role also involves using basic business skills to align technical support with organizational objectives, ensuring our solutions meet strategic goals effectively.

In addition to my technical expertise, I bring strong communication, interpersonal, and reporting skills in both English and Amharic. I am highly organized, adaptable, and committed to continuous learning, making me well-suited to contribute positively to your team's success.

Warm Regards,

Rahmet Ahmed
